

5DF 92760
Stainless steel black lacquered
Island Hood

Power / Consumption

- Voltage: 220 - 240 V
- Total connected load: 208,2 W
- Energy efficiency class: A*
- Average energy consumption: 51 kWh / year*
- Fan efficiency class: A*
- Lighting efficiency class: A*
- Grease filter efficiency class: B*

- Noise min. / max. normal level: 48 / 64 dB*
- Fan power max. normal stage / intensive stage*:
with exhaust air operation 521 m³/h / 650 m³/h
for recirculation operation 380 m³/h / 480 m³/h

Equipment

- stainless steel painted black
- For ceiling mounting above cooking islands
- Optional exhaust air or recirculation operation
(a carbon filter is required for recirculating air operation)
- Fan power 4-stage (3 power levels + 1 intensive stage)
- adjustable by remote control
- Intensive stages with automatic reset
- High, finely controllable fan output
- Powerful and quiet blower
- Uniform, bright illumination with 2 x 4.1 W LED modules
- Illuminance: 270 lux
- Color temperature: 4000 K preset
- Metal grease filter, dishwasher safe

Dimensions H x W x D

- Unit dimensions exhaust air: 90.0 - 109.0 x 140.0 x 60.0 cm
- Unit dimensions circulating air: 96.5 - 120.0 x 140.0 x 60.0 cm

Accessoires:

charcoal filter 5Z9101X1

Special accessories:

5Z 9102X1: activated charcoal filter

Available colour variations:

Features:

- Device type: Wall hood
- Approval certificates: CE
- Length of connecting cable (cm): 150
- Net weight (kg):
- Gross weight (kg):
- Number of lamps (pcs): 2
- Diameter of exhaust port (mm): 150
- Grease filter material: Aluminium

Consumption and connection values:

- Total connected load (W):
- Fuse protection (A):
- Voltage (V): 220/240
- Frequency (Hz): 50/60
- Plug type: Schuko
- hood body: stainless steel
- Distance from hob: 60cm

EAN-Nr.: 4251003103991
